

2017 SPRING CONFERENCE

Marriott Vancouver Pinnacle Downtown | April 22–23

photo credit: Marriott Vancouver Pinnacle Downtown Hotel

PROGRAM SCHEDULE

Saturday, April 22

7:30 – 8:00 AM	Continental Breakfast & Registration
8:00 – 8:05 AM	Introduction/Welcome
8:05 – 8:50 am	<i>The 2016 WHO Classification of Tumors of the Prostate: An Update</i> Dr. Peter Humphrey
8:50 – 9:00 AM	Q&A Session
9:00 – 10:00 AM	<i>Benign Mimickers of Prostate Cancer</i> Dr. Peter Humphrey
9:45 – 10:00 AM	Q&A Session
10:00 – 10:15 AM	Break
10:15 – 11:00 AM	<i>Update on Testicular Tumor Pathology</i> Dr. Brian Skinnider
11:00 – 11:15 AM	Q&A Session
11:15 – Noon	<i>Emerging Entities in Salivary Gland Pathology</i> Dr. Tony Ng
12:15 – 1:30 PM	Lunch
1:30 – 2:30 PM	<i>A Practical Approach for Interpreting and Reporting Medical Liver Biopsies</i> Dr. Ananta Gurung
2:15 – 2:30 PM	Q&A Session
2:30 – 2:45 PM	Break
2:45 – 3:30 PM	<i>Practical Biomarkers in Diagnostic Neuropathology – Post 2016 WHO Classification</i> Dr. Stephen Yip
3:30 – 3:45 PM	Q&A Session
3:45 – 4:30 PM	<i>Variants of Urinary Bladder Carcinoma with WHO 2016 Update</i> Dr. Peter Humphrey
4:30 – 4:45 PM	Q&A Session

Sunday, April 23

8:00 – 8:30 AM	Continental Breakfast & Registration
8:30 – 9:15 AM	<i>Renal Cell Tumors, with WHO 2016 Update</i> Dr. Peter Humphrey
9:15 – 9:30 AM	Q&A Session
9:30 – 10:15 AM	<i>Appropriate Use of Plasma, PCC and Cryoprecipitate in 2017</i> Dr. Kate Chipperfield
10:15 – 10:30 AM	Q&A Session
10:30 – 10:45 AM	Break
10:45 – 11:30 AM	<i>Encapsulated Thyroid Neoplasms: A Nifty New Classification</i> Dr. Tony Ng
11:30 – 11:45 AM	Q&A Session
11:45 AM	Summary, Adjourn

■ JOINT PROVIDERSHIP ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the Joint Providership of the College of American Pathologists and the Pacific Northwest Society of Pathologists. The College of American Pathologists is accredited by the ACCME to provide continuing medical education for physicians.

■ CREDIT DESIGNATION STATEMENT

The College of American Pathologists designates this live educational activity for a maximum of *10 AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

DISCLAIMER

The content of this CME activity does not necessarily reflect the view or policies of the College of American Pathologists.

SPEAKERS

Key Note:

Dr. Peter Humphrey
Yale University

Dr. Ananta Gurung
Royal Columbian Hospital

Dr. Brian Skinnider
Vancouver General Hospital

Dr. Kate Chipperfield
BC Children's Hospital

Dr. Tony Ng
Vancouver General Hospital

Dr. Stephen Yip
Vancouver General Hospital

OBJECTIVES

- Describe the role of liver biopsy
- Develop a systematic approach to interpreting medical liver biopsies
- Identify common morphologic patterns of injury & recognize the differential for each pattern
- Compose a report that includes diagnostic prognostic and clinically relevant information
- Summarize the changes to the 2016 WHO classification of testicular tumors
- Use morphologic evaluation and immunohistochemistry to resolve common differential diagnosis problems in testicular tumor pathology
- Use knowledge on new approaches to classification and grading of prostate cancer that the attendees may apply in daily practice.
- Use knowledge on the differential diagnosis of those benign entities that may be misdiagnosed as prostate cancer. Such knowledge is critical in the daily practice of urologic surgical pathology.
- Use knowledge on new approaches to classification of bladder cancer variants that the attendees may apply in daily practice.
- Use morphologic evaluation and immunohistochemistry to resolve common differential diagnosis problems in testicular tumor pathology
- Use knowledge on new approaches to classification of renal cell tumors and cancer that the attendees may apply in daily practice.
- Develop a familiarity with the breadth of newly described entities in the update WHO classification of salivary gland tumors
- Recognize the typical clinical and morphologic features of cribriform adenocarcinoma of minor salivary gland (CAMSG) and the possible differential diagnostic pitfalls
- Describe the histologic variation seen in the hyalinizing clear cell carcinoma (HCCC), and understand the role of molecular testing for this diagnosis
- Describe the morphologic, immunohistochemical and molecular features of mammary analog secretory carcinoma (MASC) and how it overlaps with other salivary gland tumors
- Summarize the evolution of diagnostic neuropathology from reliance on pure morphology to integrative diagnosis
- Show how recent discoveries of molecular biomarkers have altered the practice of neuropathology in the diagnosis of brain tumors
- Summarize the application of benefits and challenges of advance diagnostic technologies in clinical practice
- Counsel clinicians on risks, benefits and alternatives to plasma transfusion for acquired coagulopathy and bleeding
- Recommend appropriate dose of prothrombin complex concentrate for urgent reversal of warfarin anticoagulation
- Recommend appropriate selection of plasma, cryoprecipitate or fibrinogen concentrate based on patient factors and situation

Marriott Vancouver Pinnacle Downtown Hotel

1128 West Hasting Street | Vancouver, BC CANADA
+1 604-684-1128 | Group room rates start at \$189 CAN plus applicable taxes. Must reserve by Tuesday, March 14, 2017
